

A Word from the Coordinator of Finance

It's a privilege to work in the seniors program, particularly in the area of luncheons. Not only have we been ministered to by the speakers and musicians, but we have been able to assist in making a smooth transition past the ticket counter. Many of the seniors no doubt will have been able to identify with the messages presented due to their own experiences of frustration, hurt and storms in their life. The fellowship of a large group listening to a message that ministers to our needs, has been fulfilling to us as well. We have felt ministered to. To help prepare for such an event in a practical way is a privilege and we enjoy it as well.

Nettie & Henry Plett
